

# Washington Drinking Water and Wastewater Earthquake Response Seminar

July 12, 2022

9:00 AM – 12:00 PM (Pacific Time)

Virtual Event

*Additional information will be provided to registrants.  
There is no registration fee to attend the exercise.*

## Overview

The EPA Water Security Division and the Washington State Department of Health invite you to participate in the Washington Drinking Water and Wastewater Earthquake Response Seminar on July 12, 2022, from 9:00 AM to 12:00 PM (PT). This Seminar will provide a series of presentations on the roles and responsibilities of different stakeholder groups in responding to a catastrophic earthquake and review the resources available to drinking water and wastewater utilities.

Continuing  
Education Credits  
may be available  
for attendees!

## Intended Audience

Response to a Cascadia Subduction Zone (CSZ) earthquake by the Water and Wastewater Sector requires coordination among many different organizations and the expertise of different disciplines. This seminar will examine various roles and responsibilities associated with responding to a Cascadia earthquake and tsunami. Anyone with potential roles and responsibilities related to earthquake response in the Water and Wastewater Sector are invited to register, including:

- Water/Wastewater Utility Managers and Operators
- Technical Assistance Providers
- Water Sector Associations
- Local, State, and Federal Governments

## To Register and for More Information

**Space is limited. Register today!** Please visit the registration website at: <https://wa-water-eq-seminar.eventbrite.com>
